The Village of Chatham is interested in purchasing snow removal equipment for a provided cab and chassis with a GVWR of 19,500lbs. Detailed specifications for the equipment can be provided.

The Equipment will be new and unused. The price of the Equipment will include installation on provided truck, no other fees will be added to total bid price.

Any reference to a specific truck or body manufacturer or model is intended solely for reference and to describe an acceptable standard. Other manufactures trucks and equipment will be considered acceptable if it meets the minimum standards described herein.

2.0 Specifications

Dump Body:

- Completely Stainless steel Dump body. 11' long
- Minimum 3-4 cubic yard without sideboards.

- The floor shall be made of 2 piece, 7GA 201 stainless steel and supported by ¼" thick mild steel trapezoidal longitudinal that span the entire length of the body. The floor shall be so designed and constructed that it will not have any underbody cross member bracing.

- Hard Mounted splash guards over rear Tires

Tailgate:

- 23"- 24" Tall
- Must be built out of a min of 10 Gauge Stainless steel
- Three(3) Coal chute Doors in the tailgate.
- Folding down the tailgate would require a system where no pins would need to be removed. (EZ latch)

Cab Shield:

- 1/2 cab shield

Hoist and Sub frame:

- The sub frame shall be of C channel Design 4-1/4" high by 3" wide by 3/16" Wall thickness Minimum
- The Sub Frame will incorporate the rear hinge with an easily replaceable bolted hinge pin for the dump body.
- The Scissor Hoist shall have 5" x 20" lift cylinder with 2" Chromed Rod that will ensure a dump angle of not less than 50 degrees.

Sander:

- The sander shall be a slide in gondola style with a minimum capacity of 4 Cubic Yards without extension.
- Shall be operated by hydraulic motors with an electric over hydraulic controller mounted in the cab.
- Sander shall be constructed of all 304 Stainless steel.
- Galvanized Steel screen
- Sander will lock into the existing tail gate latches of the dump body. All brackets must be constructed out of stainless steel.

Electric Tarp System:

- 4 spring electric tarp system
- 150 amp solenoid
- 50 amp auto reset circuit breaker
- Telescoping Aluminum Pivot Assembly
- Wind deflector
- Tarp must be made of solid canvas material suitable for hot mixes

Hitch

- Hitch plate must be fabricated at rear of dump truck with a 15 ton Forged Pintle hook.
- Two welded loops to hook chains installed on both sides of the hitch.
- Install and mount Trucks provided 7 pin trailer plug

Clear Lighting:

- 2 Flood lights installed at rear of dump Body
- Ground Lights shall be wired to upfitter switch number 2 in truck
- Lights shall be clear oval LED with a minimum of 1350 Lumens

Emergency Lighting:

- All emergency lighting must be DOT approved LED
- Two oval LED lights facing the rear
- Two LED flashers facing front mounted in truck grill or Cab shield
- Emergency lights wired to upfitter switch 1

Tail lighting:

- All tail lighting, directions and marking lights must be DOT approved LEDs

Hydraulics:

- Hydraulics driven by a engine mounted PTO
- Hydraulic pump must be adequate enough to operate the dump body and the sander.
- Exterior Stainless steel tank with valves securely sealed and installed on the outside of the truck on the passenger side.
- Wired To switch number 5

Controls:

- ALL controls must be electric over hydraulic and installed in a designated spot chosen by the Village of Chatham Contact
- Parker psm1000 for the sander (minimum) spec
- Dump Body Electric over hydraulic toggle with Body up indicator light

Exceptions:

If bidders offer equipment other than that shown in the detailed specifications, the bidder shall be responsible to provide evidence that equipment or components offered meet or exceed the functional or performance standards of the items listed in the specifications. The particular items omissions, exceptions or variances shall be listed on attachment "A" exceptions sheet.

3.0 Literature and Manuals:

The equipment shall be delivered with owner's manual, operators guide, warranty literature and user information for the truck and its body.
